

SATHIYA KARTHICK

Software Engineer | Web Developer

sathiyakarthick.r@gmail.com | +919176153445 | linkedin.com/in/sathiya-karthick-5975081b2 | github.com/thisiskarthick

SUMMARY

Goal-oriented Software Engineer with 3.5 years of professional experience in software and web development. Enthusiastic about designing, developing, and maintaining scalable, high-performance applications. Proven ability to collaborate with cross-functional teams and clients to deliver robust solutions that enhance customer experience. Proficient in modern web technologies and frameworks including HTML, CSS, JavaScript, PHP, React.js, and Laravel. Strong background in mobile development, REST API integration, and responsive UI/UX. Focused on continuous improvement, clean code, and agile development practices.

EXPERIENCE

SOFTWARE ENGINEER | CURRENT EMPLOYER | SEPTEMBER 2023 – PRESENT

- Designed and developed scalable solutions with automated testing to ensure quality and reliability
- Debugged, maintained, and enhanced existing systems with a focus on performance optimization.
- Collaborated with stakeholders and clients to gather requirements and integrate feedback into iterations.
- Practiced continuous improvement and version control methodologies to maintain development efficiency.

WEB DEVELOPER | PREVIOUS EMPLOYER | OCTOBER 2021 – AUGUST 2023

- Created responsive, visually appealing websites aligned with client branding and goals.
- Implemented ES6 standards, modern UI libraries, and performance optimization techniques.
- Delivered custom web solutions and ensured user satisfaction through design thinking.
- Secured applications with best practices in backend and server resource management.

Education

BACHELOR OF COMMERCE (B.COM) | A.M. JAIN COLLEGE, MEENAMBAKKAM — JUN 2019

Skills & Expertise

Programming Languages : PHP, Python, JavaScript

Frameworks & Libraries : React.js, Laravel, jQuery

Mobile Application Development : Flutter , React Native

UI/UX Design Frameworks : Bootstrap, MUI (Material-UI), MDBootstrap

Testing : Unit Testing

Database Management : MySQL, PostgreSQL

Development Tools & Platforms : GitHub, VS Code, Sublime Text, Postman, Pycharm

Operating Systems : Ubuntu, Windows

Additional Skills : Scripting & Automation, Cron Job Scheduling

Soft Skills

- Analytical and problem-solving mindset
- Effective communicator and technical documenter
- Collaborative team player focused on results
- Self-motivated and adaptable to changing requirements
- Customer- and UX-centric approach to development

Project

DMN-WESTINGHOUSE ERP

Technology: Odoo (Python, XML, PostgreSQL)

- Customer- and UX-centric approach to development
- Integrated with invoicing/sales for compliance
- Designed scalable ERP modules tailored to complex industrial needs
- Automated import/export price, tax, and discount calculations.

Custom Moodle Plugin – Proflujo AMD

Technology: PHP, MySQL, Moodle API, Bootstrap

- Automated import/export price, tax, and discount calculations.
- Built user dashboards and role-based access features
- Designed responsive UI and integrated seamlessly with core functions.
- Enhanced admin productivity and user navigation

Kennel Club of India – Dog Registration Module

Technology: Odoo (Python, XML, PostgreSQL)

- Developed full-feature registration and approval system
- Automated certification generation
- Automated approval, certificate generation, and number assignment.
- Enabled role-based access for vets, admins, and users.

Task Management System (Mobile App)

Technology: Flutter (Frontend), PHP (Backend), SQL (Database)

- Included real-time sync, role-based access, and notifications
- Developed a cross-platform mobile app for task creation, assignment, and tracking
- Backend powered by PHP APIs with SQL database integration for efficient data handling.

Events Management System

Technology: PHP, MySQL, HTML, CSS, JavaScript

- Created an end-to-end platform for events scheduling and attendee management
- Real-time dashboards, feedback forms, and automated reminders
- Responsive and cross-browser compatible design.

Dosetrack – Radiation Dose Monitoring System

Technology: PHP, Laravel, MySQL, Blade, HTML, CSS, JavaScript

- Supports ALARA compliance through accurate dose tracking and automated high-exposure alerts.
- Integrated with hospital systems (RIS/PACS) for seamless data synchronization.
- Designed responsive, role-based dashboards for healthcare professionals.

Activities and Interests

- Travel
- Video games
- Art

Certifications

- Udemy: The Complete 2024 Web Development Bootcamp
- Simplilearn: Python for Beginners
- Simplilearn: React.js for Beginners
